www.lawson.com

Benefits

- Offers easy access to a single source of financial data, critical in achieving profitability goals.
- Allows all participants to work in a dynamic, collaborative planning and forecasting environment.
- Links your financial forecasts more closely with financial results.
- Helps you spend less time extracting and cleaning up data so you can devote your time to analysis
- Integrates with various data sources – like Lawson General Ledger and Lawson Human Capital Management – providing version control, reducing possible re-keying errors, and increasing budget accuracy

Features

- Single data source for easy, rapid access from anywhere within the system.
- Easier access to historical data for use in more accurate forecasting.
- Foreign currency support that allows end users to view plans in multiple currencies.
- Budget adjustment capability, while maintaining original amounts.
- Easy-to-use web-based interface tailored to each user's area of responsibility.
- Appropriate information access through a role-based security model.
- Approval tagging for easy status tracking throughout the planning hierarchy.
- Internal integration for easy transfer of financial and workforce data between applications.
- Ability to make global changes that affect multiple budgets.
- Ability to create and view multiple datasets, such as actuals, budgets, plans, and forecasts.
